
Teacher of Science

Contract Type:	Permanent; Full-time TMS / UPS Scale + Recruitment & Retention allowance depending on experience
Required for:	January 2024 – We are looking for someone to start in January however we would be open to an immediate start.
Closing Date for applications:	Open-ended - Aylesbury UTC may close this vacancy without warning if a sufficient number of applications are received. An early application is therefore strongly advised
Interview date:	To be arranged with applicant

This is an exceptional opportunity to become part of the Science Department at Aylesbury UTC in order to support students to achieve the best possible outcomes. Students join the school in Year 10 or Year 12 because they are passionate about following one of our specialisms – Building Studies, Computing or Health. Our employer links, industry-standard facilities and determined focus on purposeful pathways for young people mean that Aylesbury UTC is an excellent place to make a difference. You will be well-supported by a strong team of professionals who always go the 'extra mile' for our young people.

Aylesbury UTC is a unique school offering the very best of technical education with outstanding links to our specialist employer sponsors. Our UTC specialises in Computing and Health with some year 11 students on a Building Studies qualification. The new Science Teacher will be very much involved in our Health curriculum development, due to the links to Science at KS4 and KS5. Our curriculum embraces the core subjects at Key Stage 4 coupled with an innovative focus on our specialisms which is then further developed into our Sixth Form.

This is a very happy and supportive environment, with great relationships throughout the school. We place an especially high value on the development of colleagues and have an extensive professional development programme. There are many opportunities for staff to work collaboratively across the school and our Trust (Merchant Taylors' Oxfordshire Academy Trust) and the successful candidate will be encouraged to take these where appropriate.

All successful candidates will be subject to a child protection vetting process along with all other relevant employment checks.

Next Steps
